<b>Program Details</b>	<b>Graphics Program</b>
<b>Description</b>	Ticata will render five (5) Custom, Full Color Static Marketing Screens (2 to display in the Idle/Welcome Sequence, 2 to display in the Wait Sequence and 1 as a Thank You screen), One (1) Custom, Black and White Receipt Message, Campaign Code, Testing and CD Delivery.
<b>ID Number</b>	#1502
<b>Cost</b>	\$1,700.00 per program

---

<b>Program Details</b>	<b>Full Screen Animation</b>
<b>Description</b>	Ticata will render a Custom, Full Color Animation rendered to meet our client's design objectives. This design will include: a PDF storyboard layout and determining the design sequence. Upon design approval, the storyboard will be animated in final form to meet NCR ATM specifications. The rendering can include displaying your client's logo/reader, and/or instructional animation which displays the ATM's functionality.
<b>ID Number</b>	#3202
<b>Cost</b>	\$750.00 per animation

---

<b>Program Details</b>	<b>Partial Screen Animation</b>
<b>Description</b>	Ticata will insert a client's logo mark onto existing Edge (Partial) Animations. There are roughly 10 animations that are modifiable; Endorse Check, Flatten Check, Insert Check, Insert Multiple Checks, Reject Multiple Checks, Processing Check, Take Receipt, Card Eject, Dip Reader SelfServ, Motorized Reader SelfServ.
<b>ID Number</b>	#3203
<b>Cost</b>	\$350.00 per animation

**NOTES: Programming of the above can be displayed on an unlimited number of NCR ATMs per platform type (ATM Platform types: OS/2 or Windows). Edge Customization and Partial Screen Animations applies only to Edge ATMs.**

<b>Program Details</b>	<b>Edge Customization</b>
<b>Description</b>	Ticata will render a Custom, Full Color Static Wallpaper and Buttons design to meets our client's branding objectives. Program also includes receipt logo header customization in Black & White. This design will include: color objectives, button design and layout to meet NCR specifications. Upon design approval, the customization file will then be programmed to meet the guidelines of your client's Host/ATM environment. (Please Note: NCR & Ticata highly recommend creating at least two resolutions (800x600 and 1024x768). Supporting multiple resolutions makes it much less likely for problems out in the field. Since each resolution has graphics specific to it, they can not simply "scale" to fit another resolution. In the case of older, "core-upgraded ATMs" we recommend creating the 640x480 resolution as well.)
<b>ID Number</b>	#1510
<b>Cost</b>	\$2,200.00 per resolution <i>(640x480, 800x600 and 1024x768)</i>

<b>Program Details</b>	<b>Logo Header Customization</b>
<b>Description</b>	Ticata will render our clients logo to display on the receipt in black and white. This program will include: Programming and Delivery of an Install CD.
<b>ID Number</b>	#8035
<b>Cost</b>	\$500.00 per platform <i>(ATM Platforms: OS/2, AANDC and EDGE)</i>

**NOTES: Programming of the above can be displayed on an unlimited number of NCR ATMs per platform type (ATM Platform types: OS/2 or Windows). Edge Customization and Partial Screen Animations applies only to Edge ATMs.**
